REMARKS

In the Office Action, the Examiner identified two inventions said to be distinct and separate. Specifically, the Examiner identified claims 4-16 to be drawn towards a surveillance system using loop antennae, and claims 17-21 to be drawn towards a video surveillance method.

Applicants hereby elect to proceed with prosecution of Group 1 identified by the Examiner. Claims believed to fall under Group 1 include 4-16. Accordingly, claims 17-21 have been canceled for possible inclusion in a subsequent divisional application.

If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
